Brigitte Steinmetz

Science Magnet Eligibility Contract

The Science Magnet Program is a high interest program which includes many activities and enrichment opportunities. In order to maintain the integrity of this program each student is expected to perform to his/her best ability. Therefore certain requirements must be met to avoid probation or dismissal.

The following minimum requirements are:

- **Grades** – Students must earn at least a “C” in science. Students must have at least a “B” in science and a “C” in all other classes to attend the Yosemite trip.
- **Citizenship** – Students must earn at least a “S” in science. Students must have “E”s and “G”s in all classes to attend the Yosemite Trip.
- **Work Habits** – Students must earn at least a “S” in science. Students must have “E”s and “G”s in all classes to attend the Yosemite Trip.
- **Projects** – Students must complete all major projects on time.
- **Seminars** – Students must attend one seminar during each 6 week grading period (6 for the year).
- **Summer Institute** - Students must earn credit for the summer institute.

If the following requirements are not met, the student is placed on probation. A student can only be placed on probation once during the school year. If a student falls below these minimum standards a second time, he/she will be removed from the Magnet Program. **During the probation period, a student is not eligible for any trips or camps.** Also during this time, he/she is expected to make up any missed seminars or missed assignments and to improve his/her academic grade to the minimum level.

I have read the following eligibility requirements and if I have any questions or concerns I will contact the science teacher immediately.

Sincerely,

Santa Monica Science Magnet Faculty
